Library

Market Share

Absolute Usage

Market Share refers to the percentage of sites using any JavaScript library that use the specified librar
Absolute Usage is the percent of websites surveyed, including those that use no JavaScript libraries, t
the specified library. All data comes from W3Techs and was accurate in June of 2016.

The Three Most Popular JavaScript Libraries

freeCodeCamp is one of the best platforms to learn how to code

Learning to code is free on freeCodeCamp, that's why they call it freeCodeCamp

freeCodeCamp generates money through donations inorder to pay employees and maintain servers.

If you're generous enough, consider joining others who have been donating to freeCodeCamp

At freeCodeCamp, it's not all about typing on a code editor alone, there's a forum like StackOverflow, v
your coding problems and get answers from campers alike.

freeCodeCamp is one of the best platforms to learn how to code

Learning to code is free on freeCodeCamp, that's why they call it freeCodeCamp

freeCodeCamp generates money through donations inorder to pay employees and maintain servers.

This is the footer

- Esmaiel
  - Preview Topics - US is missing -> @Rainer & @Frank
  - Topic Preview text: not in bold, but in italic, keep the header line as is
  - Languages of a PDF - required field - show on the UI (as done for the key)
  - US "01.017 Publish Service Instruction and Cover Letter"
- Bahir & Omar
  - Opening a PDF on CLAAS PROD not working
    - Saving Topic's HTML not working on CLAAS PROD
  - Complete Topic Translations
  - Refactor to use access_token from the geteway, not from the user
  - Key of an image/PDF is not checked for uniqueness on UPDATE
  - US "01.017 Publish Service Instruction and Cover Letter"
- Alex
  - tinyMCE license message on CLAAS PROD
  - Complete Review of the topics related-code
- Faisal
  - SAP Webhook Import
- Frank & Rainer
  - US "Preview Topics"
  - US "01.017 Publish Service Instruction and Cover Lette" - please update/review

For every new User Story (US):
1. check the US
2. understand the US
3. ask all questions
4. update the US to be more complete
5. make sure that we have a common understanding by summarizing the next dev. steps
6. create screen mockups if necessary
7. ... only then: start coding
